GLYCERO-PHOSPHATE & IRON SUPPLEMENT FOR HORSES

PERFORMANCE/EXERCISE STRESS & RECOVERY

ACTIVE CONSTITUENTS (PER L)

Ferric ammonium citrate 4100mg, Ferrous sulphate 9360mg, Sodium glycerophosphate 4.37g, Potassium glycerophosphate , Manganese glycerophosphate 6.8g, Magnesium glycerophosphate 5.43g, Choline 56mL.

Features

- High energy glycerophosphate provision.
- Two readily assimilated and highly available iron salts.
- Added choline to meet the increased demands of liver stress in hard working horses.
- Highly palatable liquid for easily administered oral use.
- Rapidly replaces phosphate compounds which are necessary for muscle metabolism.
- Improves absorption rate of available iron into the blood stream.

Benefits

- Provides instantly available energy.
- Delays lactic acid accumulation and muscle fatigue.
- Improves endurance capacity.
- Maintains optimum red blood cell counts and maximizes oxygen transfer.
- Improves iron absorption from the gut and aids liver function.
- Stimulates the appetite.
- Rapidly metabolized and absorbed.
- Increases iron absorption while simultaneously maintaining Vitamin E potency.

DIRECTIONS FOR USE/CONTRAINDICATIONS

Administer orally over the tongue or place liquid on dry feed.

DOSAGE RATES

Routine use 60mL daily; Spelling horses use 60mL daily for the first 28 days then reduce to 30mL daily if horse is spelling for longer than 6 weeks.

PACK SIZE(S)

5L; 20L.
