

# Ranvet's Neutrolene

Body Acid Neutraliser & Alkali Replacer for Horses

## PERFORMANCE/EXERCISE STRESS & RECOVERY

**BODY ACID NEUTRALISER AND ALKALI RESERVE REPLACER FOR THE TREATMENT AND PREVENTION OF ACIDOSIS IN HORSES.**

### ACTIVE CONSTITUENTS (PER L)

Sodium citrate dihydrate 279.33g, Citric acid 226.6g.

### Features

- Specifically formulated for performance horses.
- Rapidly metabolised and absorbed.
- Neutralises excess lactic acid in the blood and muscle.
- Aids in the treatment and prevention of dehydration, acidosis and myopathy/'tying up'.
- Balances blood pH for optimum performance.

### Benefits

- Rapid utilisation and acid neutralisation improves recovery rate following strenuous exercise.
- Restores depleted reserves of the most common bodily alkali, sodium.
- Supplies adequate body alkalines to neutralise acid build-up.
- May be dosed immediately following hard work.
- Able to be used in conjunction with standard daily electrolyte supplementation of Ranvet's Salkavite.

### DIRECTIONS FOR USE/CONTRAINDICATIONS

Administer orally over the tongue or place liquid on dry feed.

**IMPORTANT NOTE:** Ideally, daily broad spectrum electrolyte supplementation should be practiced via the addition of Ranvet Salkavite to the ration. Additionally, horses coming into work produce greater amounts of lactic acid for a given workload and as fitness increases, the ability to buffer and cope with acid improves considerably.

### DOSAGE RATES

Routine use 45mL twice daily; Post-race 30mL additional to daily administration; As treatment in cases of metabolic disturbance 65mL twice daily.

### PACK SIZE(S)

5L; 20L.
