Folactin Red

Mineral Supplement for Horses

BONE STRENGTH & DEVELOPMENT

PREMIUM GRADE MINERAL SUPPLEMENT FORMULATED FOR HORSES AT STUD (MARES, STALLIONS, WEANLINGS AND YEARLINGS).

ACTIVE CONSTITUENTS (PER KG)

Calcium 307g, Phosphorus 84g, Copper 330mg, Zinc 1.25g, Vitamin A 74.1mg, Vitamin D3 2.5mg, Inositol 79mg, Cobalt 8mg, Fluoride 4mg, Folic acid 167mg, Lactose 20g.

Features

- Specifically formulated to meet the needs of horses at stud and paddocked horses.
- Supplies all essential minerals critical for sound bone growth and development.
- Provides essential co-factors, Vitamins A & D and folic acid for bone development.
- Aids in the promotion of proper absorption, utilization and retention of calcium and phosphorus.
- Safe for pregnant mares, lactating mares, stallions and foals.
- Promotes optimal absorption, utilisation and retention of calcium and phosphorus.
- Provides optimum nutrition during early skeletal development for steady growth.

Benefits

- Formulated to meet the specific needs of paddocked and stud horses of all ages.
- Rectifies calcium and phosphorus deficiencies and incorrect ratios which negatively impact bone development and soundness.
- Ensures sound bone, tendon and ligament development and integrity.
- Allows proper utilization and deposition of calcium and phosphorus in bone and for red blood cell production.
- Safely supplements and effectively balances vitamin and trace element deficiencies in pastured horses.
- Easily mixed into the ration.

DIRECTIONS FOR USE/CONTRAINDICATIONS

Mix Ranvet Folactin Red thoroughly through the feed. A measure is provided. One level measure holds 30g Folactin Red.

IMPORTANT NOTE: As Folactin Red contains copper salt, care must be taken when administering to horses with a copper sufficient diet. Additionally, the supplementation of Folactin Red to brood mares, foals, weanlings and yearlings is advised until training/racing commences. At this time, continue mineral supplementation with Folactin Blue during training/racing/competition.

DOSAGE RATES

Pregnant mares 60-120g daily; Lactating mares 60-150g daily; Dry mares 60-90g daily; Stallions 60-90g daily; Foals (creep fed) 15-45g daily; Weanlings 60-120g daily; Yearlings 90-120g daily.

PACK SIZE(S)

5kg; 20kg
