### Features

- Exclusive protein supplement containing protein meal and essential vitamins and minerals including calcium, phosphorus, magnesium, zinc, vitamin A and vitamin E.
- Daily supplementation of Ranvet 500 Plus will provide balancing nutrients for sound growth and excellent conditioning.
- Supplies a unique amino acid profile which provides the building blocks to lay down bone and muscle in growing horses and keeps older horses looking young.
- Optimal calcium : phosphorus ratio to ensure sound bone growth and development.
- Provides low energy and carbohydrates while ensuring high quality protein provision.
- Easily supplemented pellet form.
- Complete feed supplement in highly palatable, easily delivered pelleted form.
- No animal by-products.

#### DIRECTIONS FOR USE/CONTRAINDICATIONS:

Mix Ranvet 500 Plus thoroughly through the Horse's feed. Daily use is necessary to maintain effect.

#### DOSAGE RATES:

##### Daily Intake

Pregnant & Lactating Mares; 600g daily. Creep Fed Foals; 150-200g daily. Weanlings; 300-400g daily. Yearlings; 600g daily.

*\*Supplementation rates will vary according to other dietary nutrients.*

#### PACK SIZE:

20kg Bag.

### Benefits

- Well balanced, high quality protein and amino acid supplement.
- Provides correct balance of critical bone mineral nutrients, preventing demineralisation through dietary imbalances.
- Essential elements for normal bone metabolism.
- Essential co-factors in calcium absorption and metabolism.
- Allows varying of the grain portion of the diet depending on individual energy requirements.
- Recently re-formulated in line with the latest research which suggests that increasing the levels of key minerals may reduce the incidence of developmental orthopaedic disease-enhanced levels of phosphorus, copper and zinc.
- Vitamin E now added to enhance the immune response.
- Palatable and non-siftable.
