

Drench Gun

Drenching Tool for Oral Supplements

STABLE MANAGEMENT

**EASY TO USE, CONVENIENT DRENCHING
TOOL FOR ORAL SUPPLEMENTS &
MEDICATIONS IN HORSES**

Features

- Precise dosage regulation.
- Sturdy, non-distorting, heavy duty plastic configuration.
- Silicone washer to prevent leakage.
- Transparent barrel to facilitate viewing of contents.
- Indelible graduations in relief.

Benefits

- Able to be completely dismantled for cleaning and/or disinfection.
- Enables trouble free and efficient cleaning of all segments.
- Withstands sterilising with boiling water.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Place contents desired for drenching into the barrel. Position the end of the nozzle to the back of the horse's mouth over cheek and teeth and dispell contents ensuring the horse swallows.

PACK SIZE:

Ranvet's Drench Gun is available in 70mL capacity, short nozzle diameter 10mm.
