Flexi-Joint **Plus**

Pelleted Joint Supplement for Horses **with added CURCUMIN**

JOINT CARE

PELLETED SUPPLEMENT TO ASSIST JOINT HEALTH AND FUNCTION IN HORSES

KEY INGREDIENTS per kg:

Glucosamine Sulphate 246g, Chondroitin Sulphate 88.7g, Manganese Chelate 11.8g, Ascorbic Acid (Vit C) 12.2g, MSM 20g, Bioavailable Curcumin 35g

Features

- Provides **six** key ingredients: Glucosamine Sulphate, Chondroitin Sulphate, Manganese Chelate, Vitamin C, MSM and Bioavailable Curcumin to assist in improving joint health and function in horses.
- Delivers high-quality Glucosamine Sulphate which is readily absorbed to offer superior concentrations of sulphates within the articular cartilage.
- Contains Manganese Chelate, a co-factor that is essential for the synthesis of Chondroitin Sulphate and necessary for the production of synovial fluid (joint lubricant).
- Includes Vitamin C which is essential for the health of cartilage and connective tissues.
- Contains MSM and Bioavailable Curcumin that are known for their natural anti-inflammatory properties.

DIRECTIONS FOR USE:

Mix Flexi-Joint **Plus** pellet thoroughly through the horse's feed. Daily use is necessary to maintain effect.

DOSAGE RATES:

A measure is provided. One LEVEL measure holds 30g of Flexi-Joint **Plus**.
Initial dose (4 weeks) feed 60g per 500kg each day.
Maintenance dose feed 30g per 500kg each day.

PACK SIZE(S):

1.5kg & 3kg

Benefits

- Helps aid joint movement and mobility.
- Stimulates cartilage formation and repair.
- Supplementation counteracts the degeneration of joint cartilage resulting from a variety of circumstances such as; direct trauma, structural abnormality of the joint, high impact performance, strenuous training and age-related deterioration.
- May be of assistance for the improvement of joint health and function associated with osteoarthritis, degenerative joint disease, bony spurs and articular inflammation.
