

Neutrolene[®]

Body Acid Neutraliser & Alkali Replacer For Horses

PERFORMANCE/ EXERCISE RECOVERY

BODY ACID NEUTRALISER & ALKALI RESERVE REPLACER FOR THE TREATMENT & PREVENTION OF ACIDOSIS IN HORSES

ACTIVE INGREDIENTS per L:

Sodium Citrate Dihydrate 279.3g & Citric Acid 93.3g

Features

- Specifically formulated for performance horses.
- Rapidly metabolised and absorbed.
- Neutralises excess lactic acid in the blood and muscle.
- Aids in the treatment and prevention of dehydration, acidosis and myopathy/ 'tying up'.
- Balances blood pH for optimum performance.

Benefits

- Rapid utilisation and acid neutralisation improves recovery rate following strenuous exercise.
- Restores depleted reserves of the most common bodily alkali, sodium.
- Supplies adequate body alkalines to neutralise acid build-up.
- May be dosed immediately following hard work.
- Able to be used in conjunction with standard daily electrolyte supplementation of Ranvet's Salkavite.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Administer orally over the tongue or place liquid on dry feed.

IMPORTANT NOTE: Ideally, daily broad spectrum electrolyte supplementation should be practiced via the addition of Ranvet Salkavite to the ration. Additionally, horses coming into work produce greater amounts of lactic acid for a given workload and as fitness increases, the ability to buffer and cope with acid improves considerably.

DOSAGE RATES:

AS ROUTINE: 90mL Daily, as two 45mL dose in separate feeds.

AFTER A RACE: an additional 30mL (75mL in total) in the night feed.

PACK SIZE(S):

5L & 20L
