Potassium **Plus**

Supplement to Aid Muscle & Nerve Function in Horses

PERFORMANCE/EXERCISE RECOVERY

POTASSIUM SUPPLEMENT FOR PEAK MUSCLE FUNCTION

KEY INGREDIENTS per L:

Potassium 127.6g, Magnesium 17.1g, Vitamin E 4.0g, Zinc 1.48g

Features

- Supplies highly bio-available potassium.
- Helps maintain optimum body fluid balance.
- Helps counteract the stresses of training and strenuous activity.
- Provides highly concentrated potent antioxidants.
- Provides Magnesium and Zinc in concentrated form, critical for maintaining strong, well developed bond and cartilage tissue.
- Maximises muscle function for heavy sweaters, endurance and stressed horses.
- Essential for maintenance of tissue fluid balance and nerve and muscle excitability and function.

Benefits

- Reduces dehydration, allowing optimal muscle function in extreme environmental conditions.
- Supplies readily available potassium, critical to efficient muscle function, especially in hot climates, due to large amounts of potassium being lost during intense muscle activity and sweating.
- Replenishes potassium lost through urine excretion in stressed horses. Supplementation is recommended, particularly when horses are 'training off'.
- Includes Vitamin E which is a potent anti-oxidant critical to maintaining healthy muscle function during hard exercise.
- Able to be used in conjunction with daily electrolyte supplementation of Salkavite and Neutrolene to reduce lactic acidosis.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Administer Potassium Plus on or within the horse's feed. Continual use of product whilst horse is in training.

DOSAGE RATES:

HORSES IN TRAINING (450kg-500kg).....45mL Twice Daily

PACK SIZE(S):

5L & 20L
