

Recovery-Aid Powder

Electrolyte, BCAA, B-Group & Antioxidant Powder Supplement
for Horses

EXERCISE/RECOVERY

SUPPLEMENTARY SOURCE OF ELECTROLYTES, B-GROUP VITAMINS, BRANCHED CHAIN AMINO ACIDS AND ANTIOXIDANTS TO SUPPORT THE RECOVERY PROCESS

KEY INGREDIENTS per Kg:

Vitamin B1 3589.2mg, Vitamin B2 3553.2mg, Folic Acid 776mg, Vitamin B6 199.4mg, Vitamin B12 14mg, Sodium 117g, Sulphate 104g, Chloride 96g, Bicarbonate 73g, Citrate 49g, Potassium 39.3g, Magnesium 6.86g, Vitamin E 4590IU, Leucine 157.7g, Isoleucine 95g, Valine 95g.

Features

- Branch chain amino acids
- Alkaline racing salts balances the Horses' blood pH to an optimum level and enable the horse to easily deal with the acid production from training and racing.
- High levels of B-group vitamins and Folic acid play an important role in recovery.
- Contains Vitamin E and Anthocyanin, which are powerful antioxidants.
- Contains buffering agents.
- Glucose based energy source.

Benefits

- Accelerates muscle recovery and increases the storage of muscle glycogen (sprint energy).
- Maintains the blood pH at an optimal level, which is a key factor to performing well.
- Aids appetite and supports a positive blood profile.
- Protects muscle membranes and reduces post exercise muscle soreness.
- Increases the body's ability to combat exercise and aids muscle recovery.
- Replenishes muscle glycogen stores pre and post exercise.

DIRECTIONS FOR USE/CONTRAINDICATIONS:

Add 150g (5 level scoops, a measure is provided) of Ranvet's Recovery-Aid Powder to 2 litres of lukewarm water and mix thoroughly. Administer as required pre or post strenuous exercise.

NOTE: The Ranvet Recovery-Aid Powder is ideally suited to boost recovery post fast work, or 48 hours before racing to replenish essential nutrients.

PACK SIZE(S):

2.5kg & 15kg
