

# Salka-Lite<sup>®</sup>

## Essential B-Group Vitamins & Electrolytes with Vitamin E & Vitamin C for Greyhounds

### ELECTROLYTES

#### ESSENTIAL SALTS WITH B-GROUP VITAMINS, VITAMIN E & VITAMIN C

#### KEY INGREDIENTS per Kg:

Potassium 167.4g, Chloride 152.1g, Sodium 20.9g, Magnesium 15.5g, Vitamin C 25g, Nicotinamide 1.5g, Vitamin B1 0.75g, Vitamin B2 0.75g, Vitamin B6 0.25g, Vitamin E 5,000IU

### Features

- Supplies essential body salts, potassium, magnesium, sodium and chloride.
- Helps maintain optimum body fluid balance, nerve and muscle function.
- Supplies potent anti-oxidants essential to peak performance and recovery.
- Ideal for intense work or travelling or basic daily supplementation.
- Flexible use and daily supplementation as a feed or water additive.

### Benefits

- Rectifies B-Group Vitamin deficiencies that may not be provided in the diet alone.
- Reduces dehydration, muscle fatigue, cramping, poor performance and delayed recovery following exercise.
- Reduces tissue damage and maintains cell integrity during strenuous work.
- Highly palatable powder.
- Easily mixed into the ration.

#### DIRECTIONS FOR USE/CONTRAINDICATIONS:

Always ensure access to clean, fresh drinking water when using oral electrolyte supplements.

*IMPORTANT NOTE: Potassium is the primary electrolyte mineral found inside body cells. It functions to maintain the correct amount of fluid within the cell as well as normal electrical activity of the cells. Potassium works in close relation with sodium to keep tissue fluid balances correct for optimum performance. Chronic potassium deficiency may severely limit muscle function and performance as well as lead to dehydration and muscle fatigue.*

#### DOSAGE RATES:

Mix Salka-Lite evenly into the feed twice daily. Provide 4g (one scoop) in the morning and evening meals.

#### PACK SIZE(S):

1kg & 4kg
