

EnergyMAX

**Glycerophosphate & Iron Supplement For Greyhounds
with added Choline**

ENERGY

**HIGH-PERFORMANCE GREYHOUND SUPPLEMENT
CONTAINING GLYCERO-PHOSPHATES, CHOLINE AND
EASILY ASSIMILATED IRON SALTS IN A SUGAR SYRUP**

KEY INGREDIENTS per L:

Iron 11.92g, Glycerophosphate 21.2g & Choline 0.056g

Features

- Supplies a concentrated source of glycerophosphate.
- Contains iron salts.
- Contains added choline to meet the increased demands of liver stress in greyhounds.
- Can be used to supplement greyhounds with iron deficiency.

Benefits

- Highly palatable liquid for easily administered oral use.
- Does not contravene the rules of racing.
- Can be used as a daily supplementation.

DIRECTIONS FOR USE

Mix EnergyMAX thoroughly through the greyhounds feed. Continual use is recommended whilst greyhound is in training.

DOSAGE RATES:

Greyhounds in training (30kg) 5mL twice daily.

PACK SIZE:

1L
