

# Aminovite<sup>®</sup> Plus

*Multivitamin Supplement with added Trace Minerals*

High Level  
Performance Horses

Supplies all essential nutrients  
commonly deficient in many rations.

Palatable  
Powder

## KEY INGREDIENTS (per kg)

Vitamin A 210,000IU, Vitamin D3 25,700IU, Vitamin B3 3.8g, Choline 3.7g, Vitamin B1 1750mg, Vitamin B2 1710mg, Vitamin B5 865mg, Vitamin B6 1030mg, Vitamin B12 7mg, Zinc 2100mg, Folic Acid 870mg, Copper 510mg, Cobalt 30mg, Iodine 10mg, Selenium 4.48mg, Vitamin E 5100IU

## FEATURES & BENEFITS

- Supplies chelated, highly bio-available minerals.
- Specifically formulated and tailored by equine veterinarians to meet the increased nutritional demands of horses subjected to the physical stress and exertion of hard racing and training.
- Specifically tailored to balance high grain diets of intensively stabled, high performance horses.
- Combats vitamin and mineral deficiencies where good quality pasture is not readily available.
- Essential for energy conversion of carbohydrates, proteins and fats.
- Absorption and bio-availability increased 2-5 times in excess of standard inorganic mineral complexes.

## DIRECTIONS FOR USE/CONTRAINDICATIONS:

Mix thoroughly through the horse's food. Spread dose over two feeds. Daily use is necessary to maintain effect.

Use with caution as Aminovite Plus contains selenium. Care should be taken when administering to horses when the diet is selenium sufficient.

## DOSAGE RATES:

The following dosage rates are to be given daily. Horses in full work 60g; Spelling horses 30g, Yearlings 30g, Weanlings 30g, Foals (Creep-fed) 15g, Pregnant mares 30g, Lactating mares 30g & Stallions at stud 60g

## PACK SIZE(S):

*3kg Bucket and 16kg Bucket*
